

RCI OFF ROAD

FORD ACCESSORIES

ELEVATE YOUR
**OFF-ROAD
ADVENTURE**
WITH RCI OFFROAD

YOUR RIG. YOUR ADVENTURE. LETS BUILD IT TOGETHER.

Whether you're an installer helping a customer gear up or a weekend warrior building your dream rig, we're here to support your journey.

From precision-crafted underbody protection to innovative rack systems, RCI Offroad delivers products that help you go farther, stay longer, and explore with confidence.

RCI Offroad supports Vehicle Platforms such as Toyota, Lexus, Ford, Chevy, Ram, Subaru, Nissan, and more.

WHAT WE OFFER:

- Skid plates and undercarriage armor
- Rock sliders
- Front and rear bumpers
- Roof racks, bed racks, and Molle Panels
- Off-road accessories and equipment

WHY GO WITH RCI OFFROAD?

- 100% made in the USA
- Precision fitment by platform
- Built for real trail conditions
- In-house engineered and fabricated
- Trusted by 1000s of drivers nation-wide

From underbody protection to gear storage systems, every product we make is backed by real-world experience and crafted with the kind of attention to detail only a team of enthusiasts can deliver.

SKID PLATES

PRECISION-ENGINEERED ARMOR FOR OFF-ROAD CONFIDENCE.

Damage doesn't just happen on extreme trails. Dirt roads and even pavement can hit just as hard. Our modular skidplate systems give you the protection you need no matter what environment your vehicle is exposed to.

FEATURES:

- High strength steel and lightweight aluminum options- 3/16" steel, 1/4" aluminum and more
- Easy bolt-on installation; no drilling or modifications required and heavy duty hardware included
- Low-profile design with bolt head protection for maximum clearance
- In-House Powder coating for maximum corrosion resistance or raw finish (aluminum only) options
- Access panels and cutouts for maintenance simplicity

STEEL:

Steel is the optimal material choice for extreme durability and taking repeated abuse.

ALUMINUM:

Aluminum is a premium option to minimize weight, provide corrosion resistance and still engineered to provide great protection off-road.

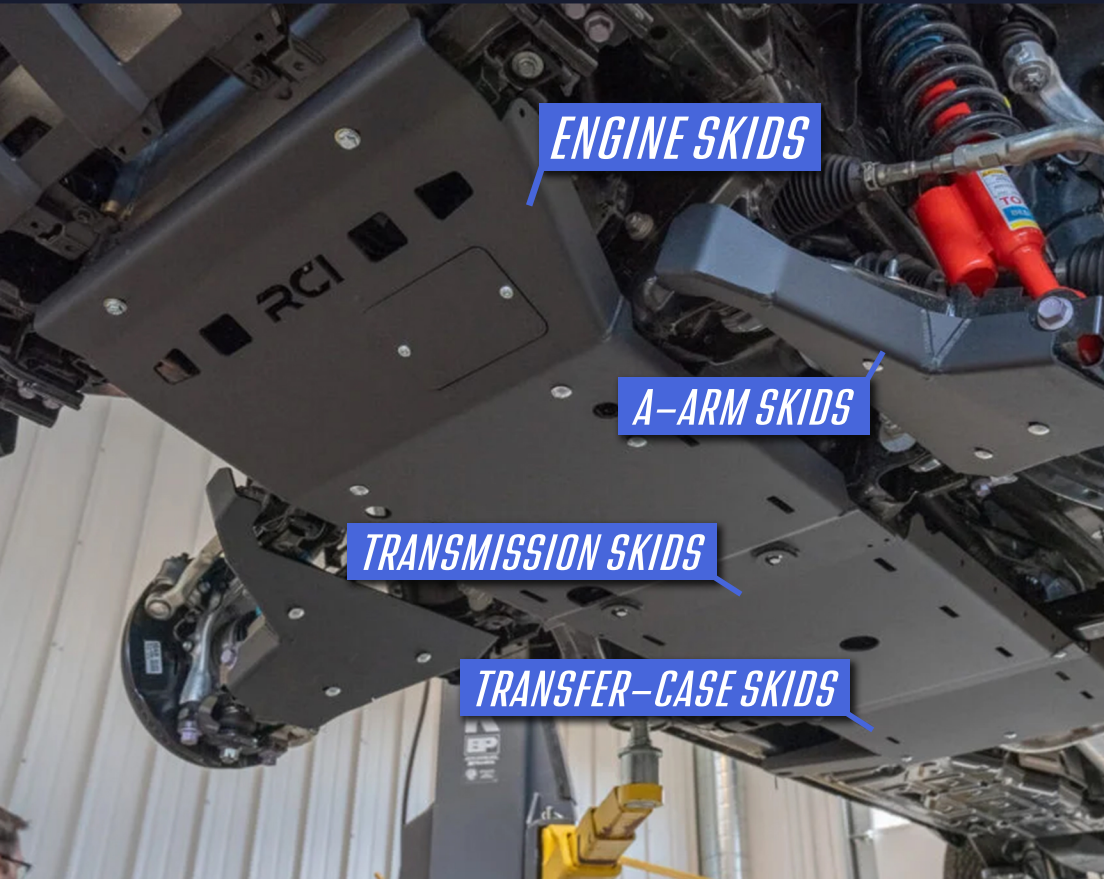

TYPES OF SKID PLATES

The oil pan is just the beginning. Our modular systems are engineered to safeguard all critical underbody components, offering a level of security that factory equipment simply can't match.

WE OFFER:

- Engine skid plates
- Fuel tank skid plates
- Transmission skid plates
- Upper/lower link skid plates
- Catalytic converter guards
- Rear differential skid plates
- Transfer case skid plates
- Shock mount skid plates and more

ROCK SLIDERS

STRUCTURAL STRENGTH AND TRAIL-TESTED DURABILITY.

These aren't just fancy steps; they're frame-mounted armor that protects your vehicle's most exposed body panels, are still a functional step to help you get in the cab, reach your roof rack, support the weight of the vehicle for trail-side repair and much more.

Our rock sliders are made from high-strength steel, come with a standard kick out, and are available for multiple vehicle models. They can also be ordered powder-coated for durability and come with all the hardware for installation.

- Supports entire vehicle's weight
- Side impact protection
- Bolt on installation (no drilling or welding)
- 5 or 20 degree angle options
- Kick-out standard
- DOM tubing
- Bolt-on treadplate option
- Bare or powder coated finish

CHOOSING THE RIGHT ANGLE

RCI rock sliders are available in 2 different angles so you can cater the kickout to your specific build!

5 DEGREE OPTION:

Sliders built at a 5° angle provide the perfect standing platform and user functionality, especially when paired with the bolt-on tread plate option.

20 DEGREE OPTION:

Sliders built at a 20° angle maximize ground clearance for optimal off-road use.

BUMPERS

STRENGTH, STYLE, AND SUPERIOR TRAIL PERFORMANCE

Built for those who push boundaries, our bumpers improve approach angles, add recovery capability, have room to add additional lighting, and carry the style RCI is known for.

Our bumpers are made from high-strength steel and are either a full replacement or an OEM + style addition.

Optional powder coating for durability is available and all bumpers come with the necessary hardware for installation.

- Winch-ready 1/2" steel recovery points
- Precision CNC laser-cut and formed
- Powder coated or raw steel options
- Full 3/16" plate steel, hybrid plate and tube combination, and OEM+ factory styling insert options
- No hoop, small hoop, and full hoop options

"Purpose-built design. Unshakeable strength. Rugged performance."

ROOF RACKS

HIGH-CAPACITY STORAGE AND TRAIL-TESTED DURABILITY

Whether it's for a rooftop tent, recovery boards, solar panels, or some camp chairs, our racks keep gear secure and easy to access.

Our roof racks are made from high-strength aluminum or a blend of aluminum and steel and are available for a variety of different vehicles. They're also powder-coated for durability and come with all the necessary hardware for installation.

FEATURES:

- Modular crossmember design for custom setups
- Low profile side panels
- Bolt-on installation, most vehicles do not require drilling
- Sun roof compatible, 100% weather-proof design
- Rear window Molle Panel options to expand carrying capacity
- Endless accessory modularity
- Front fairing design matches contour of OEM windshield for wind noise elimination & sleek styling

BED RACKS & MOLLE PANELS

MODULAR STORAGE, MAXIMUM VERSATILITY.

Your truck bed is valuable space. We help optimize it's functionality for you.

Outfit your truck bed for any loadout with our rack systems and mounting options. Our bed racks and Molle Panels are made from high-strength steel or aluminum for weight savings and are available in a variety of sizes to fit your needs. They're also powder-coated for rust prevention and come with all the necessary hardware for installation for endless accessory compatibility!

FEATURES:

- Multiple height options: 3", 9", 12", and 18"
- Width adjustable for multi-vehicle compatibility
- Built from heavy-duty powder coated steel or aluminum
- Tonneau cover compatibility
- Modular side Molle Panels for tools, fuel and water containers, recovery gear, and more

VEHICLE SUPPORT

BRONCO

Ultimate trail armor featuring full-length skid suites, high-clearance rock sliders, and panel-friendly aluminum roof racks.

F-150

Heavy-duty utility defined by modular, tonneau-compatible bed racks and theft-deterrent catalytic converter guards.

RANGER

Overland-ready "bash-to-back" armor kits and signature kick-out sliders built for agile off-road protection.

MORE VEHICLES

In addition to our core audience, we also develop off-road armor and products for:

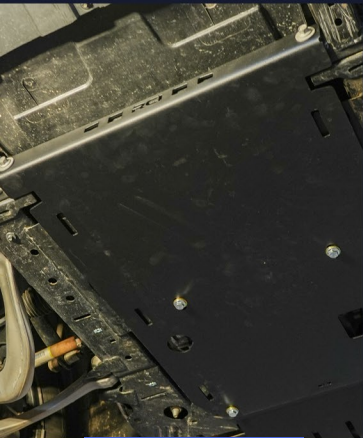

- F-250
- Explorer
- Expedition
- Navigator

FLEET ARMOR OFFERINGS
