OFF ROAD

RAM ACCESSORIES

RCI Offroad's proven American-made lineup for the RAM offers more than just protection. We've combined our signature precision-cut skid plates with our high-capacity bed rack systems to create a mature, all-in-one ecosystem for owners who demand peak utility and security

SKID PLATES PACKAGES

RCI skid plates for the RAM 1500 (2019-Present) are available in 10-gauge steel or 1/4-inch aluminum to safeguard your engine, transmission, and transfer case from costly trail damage. These plates feature a direct bolt-on design with integrated service openings, allowing for a smooth, high-clearance profile that lets you perform oil changes without removing the armor.

BED RACKS

RCI Offroad bed racks provide Dodge RAM owners with a rugged, modular platform for roof top tents and gear without sacrificing bed space. These durable, no-drill racks are available in multiple heights to perfectly balance aerodynamics and utility for any overland adventure.
